5 March 2021

Dear Resident

**CARRIAGEWAY RECONSTRUCTION & RESURFACING WORKS IN
YORK AVENUE, EAST COWES**

Good afternoon.

We are writing to give you an update at the end of the first week of working on the York Avenue reconstruction and resurfacing scheme.

We have managed to progress the works significantly; however, we have been hindered by a combination of poor ground conditions, shallow services, and heavy showers.

The most significant issue is the shallow services, as this has introduced a requirement of excavation through hand-digging in the interests of safety.

These factors combined, meant we have had a slower start than expected, but we are trying to recover lost time and still hope to finish this phase on March 23.

Our crews on site would like to join us in thanking the local community for the support and understanding shown in the first week. Clearly, a scheme of this size creates some disruption, and we really are grateful to the local community for the co-operation we are receiving.

We will continue to send out these progress bulletins, so if you know of anyone else who would welcome the updates then please encourage them to email us at info@Islandroads.com.

If you have any queries, then please email them to the same address.

Once again, thank you for your support and understanding during these works, and we will provide you with another update next week.

Yours faithfully,

Ringway Island Roads Ltd
