CARRIAGEWAY RECONSTRUCTION & RESURFACING WORKS IN YORK AVENUE, EAST COWES

Dear resident

Further to our last update, we are well into the work on Phase Three of the project. The excavation of the full width of the top end of the site is expected to be completed by the middle of next week. Work on this section has been extended by approximately 20 metres due to the poor condition of the carriageway. On completion, we will move down the hill on to the next section within this phase.

Thank you to the residents who have, as requested, observed the temporary traffic restrictions in place in order to keep the diversion route safe and effective. We know these temporary restrictions can cause inconvenience, so your ongoing support is much appreciated.

We will continue to keep you updated as we progress the scheme. Once again, many thanks for your understanding and cooperation.
