## **CARRIAGEWAY RECONSTRUCTION & RESURFACING WORKS IN YORK AVENUE, EAST COWES**

Dear resident

We plan to switch to the final phase of the scheme on Wednesday (May 19). As you may know, Phase Four is the section of York Avenue between Well Road and Adelaide Grove.

As previously stated, the switch to the final phase is later than first hoped. We have continued to face difficult ground conditions including shallow / poor services and it has not been possible to make up lost time. On a positive note, the upgrade of utility services as we have progressed through the phases should help reduce the need for future roadworks in this location.

A map of the diversion routes that will be in place during Phase Four is available via the following link.

<https://islandroads.com/wp-content/uploads/2021/02/NO-KEY-York-Avenue-East-Cowes-Recon-Phase-4.pdf>

We would respectfully ask residents to continue to observe the no-waiting restrictions that are in place along parts of the diversion route.

The no waiting cones are enforcing a temporary legal order which has been put in place for the safety of the public, as well as ensuring the diversion route is effective. As this is a legal order Parking Services have the authority to ticket any vehicles parked within the restricted areas. Island Roads will also begin to relocate any vehicles that cause an obstruction or safety issue along the diversion route should this continue.

We will, of course, provide a further update next week. In the meantime the advanced warning boards and wooden boards on-site will be updated to reflect the latest information.

In the meantime, thank you once again for your understanding and co-operation.

Island Roads
