**CARRIAGEWAY RECONSTRUCTION & RESURFACING WORKS IN YORK AVENUE, EAST COWES**

Dear Resident

Further to our update earlier this week, we have – as you will have noticed – completed the first phase of resurfacing and the ‘town end’ of York Avenue has reopened.

Resurfacing work has now switched to the second and final phase on the section up towards Osborne House between Victoria Grove and Crossways Road.

We continue to contend with the unsettled weather and as previously stated, rainy weather is not conducive to resurfacing work as wet conditions can affect the performance of the surfacing materials.

Nevertheless, we are due to work tonight and Saturday night and, if the rain stays away, we aim to complete the work and re-open the final section on Sunday morning. I must repeat though, that with the forecast this weekend showing some rain, we cannot guarantee this.

We will of course keep you posted on progress and if the weather does affect our programme, we will update the signage on site as soon as possible.

Once again, thank you for your understanding and co-operation.
