

Belgrave Road Update

July 2022

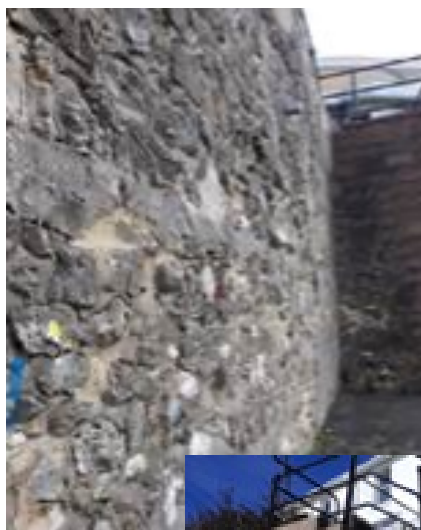

www.islandroads.com

Over the last month we have been focusing on the construction of the reinforced concrete wall in the middle terrace section at Belgrave Road.

We have also been undertaking some preparatory works on the east side of the site to help stabilise this area.

Over the course of July we will be focusing on strengthening the walls next to the welfare units on the site.

This will have a minimal impact on those walking in the area as we can alternate between closing one set of steps at a time, to ensure the footpath remains open at all times.

Work will also continue on the reinforced concrete wall construction as we rebuild the terrace walls from the bottom upwards.

Once completed, the finished scheme at Belgrave Road will be returned to the same street layout (pavement and carriageway width) as it was prior to the wall collapse.

We thank you again for your patience during these continuing works.

We will provide a further update next month but in the meantime if you have any concerns, please contact us via email at info@islandroads.com or in an emergency call 01983 822440.
