

Dear residents and stakeholders,

Further to our update on Friday 14th November 2025, we are writing to provide you with an update on Phase 1.

Phase 1 (Area 1) Update

- The base material and final surface course are due to be completed by the end of the day tomorrow, Wednesday 19th November 2025 (weather dependant).
- The current traffic management arrangements will remain in place to allow the road markings to be to be completed on Wednesday evening. Please note that adverse weather affects this process.

Phase 1 (Area 2)

- On the morning of Thursday 20th November 2025, we will move the site along to Area 2.
- This will reopen the Mountfield Road junction, allowing pedestrians and cyclists to access Wroxall from Upper Ventnor. Cyclists are asked to dismount and walk along the pavement if continuing along Clarence Road.
- A sign will be placed at the Mountfield Road junction stating: "Private Road – No Through Road" to deter non-resident motorists.
- Reconstruction and resurfacing in this section will be localised to the areas that we have identified as requiring improvement following an on-site assessment.

We are continuously adding new email addresses to our email contact group. Please note that all previous updates can be found on our website [Island Roads | Wroxall road improvement](#).

Kind regards,

Island Roads
