

Dear residents and stakeholders,

We are pleased to inform you that we completed the final surface course in Phase 1 (Area 1) this afternoon, with the lining works planned for this evening. Please see a photo taken on site today.

Following yesterday's update, we have received concerns from residents of Mountfield Road and West Street regarding the potential for motorists to use this route as a cut-through if the junction is reopened.

After reviewing the situation, we note that the first section of Mountfield Road is private, includes a short unmade stretch, and is located on a bend with limited visibility. For these reasons, we will retain the Heras panels in Clarence Road across the junction with Mountfield Road. Access for residents will remain available via West Street onto High Street.

Thank you for your cooperation as the scheme progresses.

Kind regards,

Island Roads
