

Dear resident and stakeholder,

We would like to thank the residents for working with us last night and removing their vehicles to allow us to complete the work. Works continue today in Phase 1 and tomorrow we move into Phase 2.

Phase 2 High Street, Wroxall between Castle Road and West Street commencing Thursday 27th November 2025

During Phase 2, please note the following:

- If you have an off-street parking area, there may be a period when access will be temporarily unavailable depending on the location of excavations. Unfortunately, we are unable to confirm the exact duration at this stage, as the depth and extent of excavation will depend on ground conditions, which can only be assessed once work begins.
- If you require use of your vehicle during this time, then please make arrangements to park in an alternative location. The Isle of Wight Council Parking Services team has agreed to relax parking restrictions in Wroxall during the works, however you must ensure that you park your vehicle in a safe location, ie away from bends, junctions and narrow sections of carriageways. Any vehicle deemed to be causing an obstruction to scheme progress, site traffic, bus services, emergency services or waste collection vehicles will be removed.
- Manor Road – vehicular access will be via Upper Ventnor, with the temporary traffic signals remaining at the junction.
- West Street & Mountfield Road – vehicular access will be via High Street and north via Whiteley bank.
- Rew Lane – the road closure will remain in place.
- Thalia Waste Management requests that your waste is on the kerbside before 7 am on your usual collection day to enable them to be collected.

High Street / St Johns Road / Castle Road junction

- During Phase 2, there will be a set of three-way traffic signals at the junction to allow the planing and resurfacing of the bus stop layby and across the mouth of the junction of Castle Road. There may be minor delays during these works, so please leave extra time for appointments.

Shuttle Bus

- The current shuttle bus service will not be affected.

We will continue to keep you updated on scheme progression as soon as we are in a position to do so. If you have any queries or concerns, then please contact Island Roads by email on info@islandroads.com or by telephone on 01983 822 440.

We also have a dedicated web page for the scheme which can be accessed via this link [Island Roads | Wroxall road improvement.](#)

Once again, we would like to thank you for your cooperation and understanding.

Kind regards,

Island Roads
