

Dear residents and stakeholders,

We are writing to provide you with an update on the ongoing carriageway reconstruction and resurfacing work in Wroxall.

Phase 4 (Station Road to Coombe Park)

We are hoping to complete the final surfacing layer tomorrow, however, please note that this element of the works is very weather dependent.

Grove Road Access

If the surfacing works go ahead tomorrow, then access for Grove Road will be restricted for a short period of time as we surface across the junction, with the surfacing being laid from Grove Road towards Coombe Park. If you require the use of your vehicle tomorrow, then we recommend that you park your car in an alternative location that will be accessible, before 8 am tomorrow morning.

The Isle of Wight Council are not enforcing the 24-hour maximum stay restriction in St Martin's Road Car Park. Please note that if you are using the disabled bays, then you must display a valid blue badge, and failure to do so will result in a penalty charge notice.

Phase 5 (Coombe Park to Appuldurcombe Road)

If everything goes according to plan tomorrow, we anticipate moving into Phase 5 on the morning of Thursday, 15 January 2026. We will share further details tomorrow once we have a clearer picture of how the works are progressing.

Thank you for your ongoing cooperation and understanding.
